

What is "International Class"?

1. Study & Life support

For the students related to foreign countries (Foreign nationality, Multiple nationality, Returnee), we support their study and life.

They belong to the same class as Japanese. Only when they can't understand the class, they study in international class.

If they study practical subject or eat lunch, they study with Japanese.

2. Education for International understanding

We wish both Japanese students and Foreign student respect for diversity, and understand each other regardless of nationality.

School bag, Keyboard harmonica, etc. We can lend these school supplies.

There is the changing room in international class.

They play in international class during Ramadhan.
